RF Output

65 W Powerful RF Output Power

The IC-V3500 is a rugged 2 m mobile transceiver providing powerful 65 W* of output power. The output power level is selectable in four steps and the selected power is displayed. * Output power differs depending on version and specific regulatory requirements.

Modern White Display and Simple Operation

While the IC-V3500 retains a simple user interface despite additional function updates for an easy to use radio. The white LCD backlight offers a better readability suitable for mobile operation. The bottom of the display indicates the available functions of the front panel buttons directly below the display.

4.5 W Loud and Clear Audio Output

The IC-V3500 provides class-leading 4.5 W loud audio from the built-in speaker. By improving the frequency response of the speaker and increasing opening slit, the voice is clearly audible and easy to hear.

Instant Volume Loud and Mute Functions

You can temporarily change the volume to a preset level with a simple operation. It can be used as a One-touch mute function by preset volume to zero.

Emergency Call and Alert Functions

In the case of an emergency, the emergency call function alternatively sends an emergency beep and hot microphone audio to let the receiver to know that an emergency has occurred. At the same time, an emergency alarm sounds from the IC-V3500 speaker to notify the people around you of your existence and situation.

Countermeasures against Counterfeit Products

The "3D GENUINE Icom label" and "QR Code Genuineness Determination System" are attached for proof of authentication. Check the Icom website for details https://www.icomjapan.com/explore/genuine_info/

And More...

- A total of 207 memory channels with 6 character channel name
- VHF marine channel mode and foghorn functions* (* Depending on version)
- Built-in CTCSS and DTCS encoder/decoder for repeater access
- Dynamic bank link scan function scans all memory channels in the selected banks
- Tough construction to pass the MIL-STD 810 G specifications
- Up to 16 DTMF autodial memory channels
- Free download PC programming software, CS-V3500
- (https://www.icomjapan.com/support/firmware_driver/)
- · Priority watch function
- Wide/narrow channel setting Power supply voltage display
- Most of functions are programmable from remote-control microphone

Features described above refers to EXP version. Some functions may not available with SAU version

SPECIFICATIONS

| GENERAL | | |
|--|--|--|
| Frequency coverage | | |
| EXP version | 136–174 MHz* (* Working range) | |
| | 144-148 MHz* (*Guaranteed range) | |
| SAU version | 137.0625, 137.2000, 137.6375, | |
| | 137.6625, 137.7375 MHz | |
| Number of memory channels | 207 channels (including 1 call | |
| EXP version | and 6 scan edges) | |
| SAU version | 5 channels | |
| Type of emission | F2D, F3E (FM) | |
| Frequency stability | ±3 ppm | |
| Power supply requirement | 13.8 V DC ±15% | |
| Current drain (approximate) | | |
| Tx 65 W | 11 A | |
| Rx Max. audio/Stand-by | 1.5 A/0.4 A | |
| Antenna impedance | 50 Ω (SO-239) | |
| Operating temperature range | -10°C to +60°C | |
| Dimensions ($W \times H \times D$; | 140 × 40 × 118 mm | |
| Projections not included) | | |
| Weight (approximate) | 1.1 kg | |
| | | |

IC-V3500

If not specified, specifications described above refers to EXP version. Some specifications may differ in SAU version.

Applicable U.S. Military Specifications

| Standard | MIL 810G | | |
|---|----------|-----------|--|
| Standard | Method | Procedure | |
| Low Pressure | 500.5 | I, II | |
| High Temperature | 501.5 | I, II | |
| Low Temperature | 502.5 | I, II | |
| Temperature Shock | 503.5 | I-C | |
| Solar Radiation | 505.5 | Ι | |
| Vibration | 514.6 | Ι | |
| Shock | 516.6 | I, IV | |
| Also meets equivalent MIL-STD-810-CD -E and -F. | | | |

Supplied Accessories (* Depending on version) Remote control mic, HM-133V or Hand mic, HM-154* Mounting bracket kit
 DC power cable
 Spare fuses
